Designing for Depth: Meaningful Differentiation & Manageable Ideas, Including Genius Hour

Meaningful differentiation doesn't have to mean hours of extra planning. In this interactive session, we'll explore manageable ways to stretch gifted learners' thinking using the Directions of Depth—Explore, Expand, Examine, and Evolve. Discover how simple, intentional shifts can invite richer questions, unexpected connections, closer observation, and new perspectives. From adapting everyday learning experiences to designing purposeful Genius Hour opportunities, you'll leave with practical differentiation ideas you can implement the very next day.

Presented by Andi McNair, andimcnair.com

- For all ECBOCES educators who want to learn more about differentiating for gifted and advanced learners
- January 27th, 2027 from 9:00 - 3:00
- Lunch and certificate will be provided
- Register at ecboces.org by January 15th
